TL-3100

USER MANUAL

CE

SAFETY FIRST!

For your safety, read this manual before using your new TRIE light TL-3100

TRIE Light is a high-intensity LED lighting device capable of causing eye damage. Avoid shining the light directly into the eyes.

DO NOT use in explosive atmospheres, near flammable liquids, or where explosion proof lamps are required.

DO NOT use in proximity of vehicles or equipment when there is a risk of flammable liquids coming into contact with the lamp.

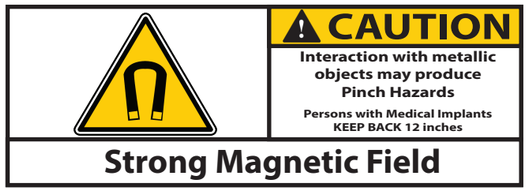
DO NOT attempt to repair or disassemble the light or the charger power supply.

Waterproof to IPX-4 standard. The light can be used in humid/rain conditions, but is not suitable for water immersion.

Use only the supplied AC charger.

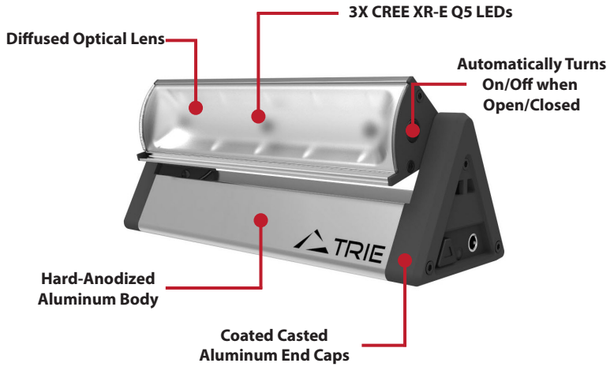
To reduce the risk of electric shock, do not put in water or other liquid. Do not place or store appliance where it can fall or be pulled into a tub or sink.
NEVER ATTEMPT TO PICK UP PLUGGED-IN APPLIANCES WHEN THEY FALL INTO WATER BECAUSE FATAL ELECTROCUTION COULD RESULT.

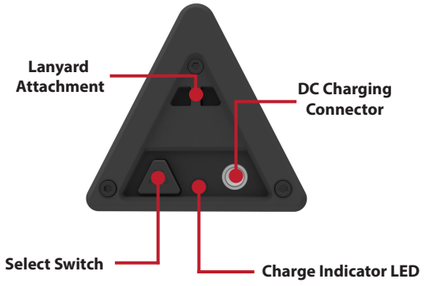
A strong magnet is located in the base of the light for securing to metallic objects.



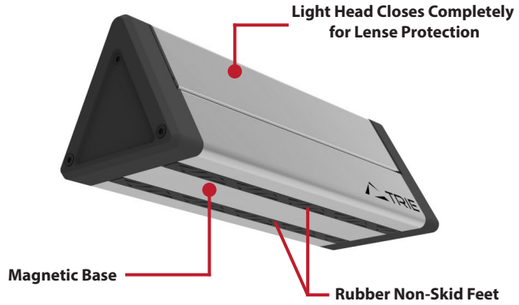
CAUTION
Interaction with metallic objects may produce Pinch Hazards
Persons with Medical Implants KEEP BACK 12 inches
Strong Magnetic Field

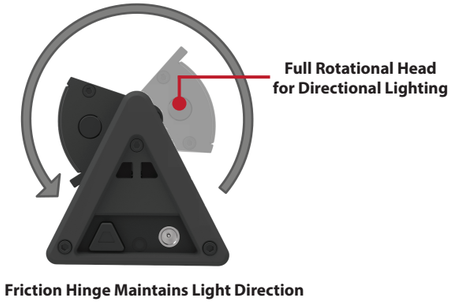
FEATURES





FEATURES CONT.





OPERATION

Charging

Fully charge the work light before the first use. Locate the DC charging connector on the light and plug the included adapter into the connector. The charge Indicator LED will illuminate red and then turn to green when fully charged.

Charging

Fully Charged
